### SUMMARY

Associate Professor of Animal and Poultry Behavior and Management with over 13 years of experience in teaching undergraduate students and 6 years of experience teaching postgraduate students by using available advanced teaching strategies in the faculty of veterinary medicine, Suez Canal University, Egypt. A motivating highly qualified trainer in the faculty and leaders' development center (FLDC), Suez Canal University, Egypt with six years of robust experience in training. Distinguished background in scientific research writing and international publication and working with teams on new projects for developing our area of research and completing the steps of our starters. Working as an executive manager for the measuring and assessment center project in my university led me to build an excellent trend in question banks, online exams, credit-hour system university teaching experience and new methods in student assessment. Exemplary communicator with the passion and drive needed to cultivate and foster professional and profitable relationships while maintaining trust.
